

April/May 2017

Mrs. Selden's Fifth Grade Class

Spring is here!

Spring is finally here! We are excited that our classroom is once again filled with sunshine throughout the school day. We have lots of events coming up throughout the last couple of months of the school year.

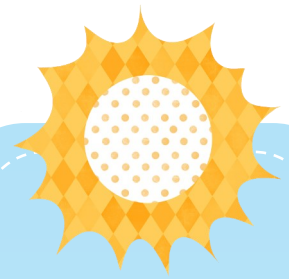

First of all, we are happy to have **finished our state testing!** We still do have two more district tests to finish before the end of the year. We have **Edperformance** and **Aimsweb** in May. These two tests are used to place students in certain classes and individualized curriculums, especially in middle school. It is important for students to show what they know and do their best!

Our students are signed up for **Typing Club**. This is a free website that focuses on teaching typing skills and can be accessed from home. Reminder, students also have accounts for IXL (math and language arts support), Thinkcentral (reading curriculum), and ReadTheory (reading support).

We have **Falcon Fun Night** coming up on **Friday, April 21st**.

We still need to sell more Fishing Trip raffle tickets to go on our end of the year field trip for free! **The raffle ends on April 22nd**. Our field trip is to **Kasistna Bay, May 16-17**. It is an overnight program that costs around \$200.00 per person. The program allows students to engage and explore the Alaskan coastal environment. The trip includes a boat ride and guided hike. I will be sending out more information about the trip as it gets closer. If you are interested in chaperoning, we can cover the cost by selling more tickets!

On May 11th, the school will be celebrating Moms through **Muffins with Moms**. We will also be participating in the **Salmon Festival Celebration at Johnson Lake on Thursday, May 11th**. We will need chaperones and drivers for this trip. This is a really cool experience for the students, as they will be trained as leaders of some of the salmon exhibits and will bring together all of their learning about salmon throughout this school year.

**Thank you
for all you
do!**

Important Dates

- 4/13 PBIS Assembly
2:30
- 4/14 Human Growth
and Dev. Class
- 4/21 Falcon Fun Night
- 4/22 Aluminum Can
Round-Up
