

Dear Sterling Families,

This year our teachers are teaming up to provide our classes with additional exploratory classes. Four days a week, your child will participate in a grade-appropriate, 30 minute rotation for Health, Science, Social Studies and Computer Lab. We are excited to be able to have this designated time in our schedules to allow students this personalized learning experience. If you have any questions, please do not hesitate to call or email the teacher directly.

Sincerely,

Krystal Duval, Megan King, Serina Montgomery, Belinda Smith

Computer Lab

Hello Falcon Families,
I am excited to be able to teach our students in our brand-new computer lab! During your child's lab time, they will learn how to login to their school district account and access many of the wonderful educational programs available to our students. We will also be covering our District Digital Citizenship program through Common Sense Media. If you have any questions or concerns, please do not hesitate to ask!

Ms. Duval

Health

I will teach Health this year using The Great Body Shop curriculum. Your child will receive their own copy of The Great Body Shop Student Issue for all units. The topics include: nutrition, illness prevention, drug and alcohol prevention, safety and other health related topics. Each unit contains information to help your child understand his/her own body, the way it works, and the best ways to keep it healthy. Please feel free to contact me via email if you should have any questions and/or concerns.

Mrs. Montgomery

Science

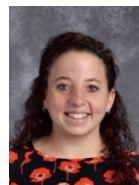

Dear families,
This year in Science students will get a chance to work hands on with several different materials. I am excited to experiment with and learn new things through science. All year long we will practice using the scientific method by using our five senses; sight, smell, hearing, taste, and touch during experiments. I look forward to working with your child. Please email me if you have any questions and/or concerns.

Mrs. King

Social Studies

I want our students to know that they are important. They are the one and only ever person that is just like them. They are special members of their family. They are needed in our community! Through learning about self and family, as well as our school and bigger Sterling community, students will learn that their role is vital in our big world.

Mrs. Smith
